

Want to know more?

Visit us at: <http://www.ebsaweb.eu/bbp-belgian-biosafety-professionals>

Who are we?

Forum for people professionally involved in biosafety with the aim to exchange experience, developments and issues in biosafety practices and regulation in a Belgian context.

Currently representing more than 80 Biosafety Professionals

What do we do?

- Promote **awareness, knowledge and understanding of biosafety** at regional/national Belgian level, thereby contributing to the European context
- Establish and communicate "**Good Practices**" with the members
- **Stimulate dialogue and discussion** on new biosafety topics
- Develop and provide **biosafety training** material and activities
- Act as "**focal point**" for the collection of standpoints in relation to the **development of regulation and standards** on biosafety, biotechnology, transport and related activities
- Contribute to the **practical** implementation of regulations and ensure that new standards are **science-based** and represent "good practices"
- Represent those active in the field of biosafety and related activities
- Represent the members' interest on all aspects of biosafety aiming to prevent damage to humans and the environment caused by biological material

Contact: bbp@ebsaweb.eu

What's in it for you as a member?

- **Training:**
 - Yearly Symposium (Entry fee at 50% reduction)
 - Workshops (Free admission)
- **BBP Flash:** Information on biosafety issues & developments
- Have a voice in determining positions
- **Meet** colleagues and experts
- Share **good practices**
 - Practical posters and guidance documents
 - Flowcharts
- LinkedIn **Discussion Forum**

BBP Steering Team

- 5 members
 - 1 president, 1 secretary 3 steering team members
 - 2-year mandate, elected by BBP members
- Monthly meetings
- Main language: English

Task forces & contact points

- Waste
 - Biosafety Practices
 - Risk Assessment
 - Regulation
 - Biosafety profession
 - Movement of biological materials
- In consultation with Belgian authorities and technical experts
